Agile Development, CSS, HTML, Javascript, React, Vue, Node, Git, Code Review, Articulate and Well-spoken Collaborator

EXPERIENCE

Nu Skin Enterprises, Remote *- working as a Software Engineer I*

April 4th, 2022 - December 31st, 2023

- Worked on a agile team with a Scrum Master, Product Owner, UX Designer, QA Engineer, Tech Lead Engineer, and myself.
- Built out catalog product detail page Bundled Products UI with Vue. Learned Vue on the job. This task required intensive state management between components within the Nuxt Vue App, as well as good styling and performance. See one of the bundles here for example: https://www.nuskin.com/us/en/search/bundle.
- Updated dependencies (specifically jQuery) as part of a security compliance effort in all of the product domain repositories.
- Tested UI and API interaction within Vue. Completed duties in given time frames, and worked with th eteam to establish those timelines and duties.
- Feel free to reach out to my work references here. They love me! And I love them.

HQ Digital Product Agency, Ogden, UT *- working as a Web Developer*

August 2020 - April 2022

- Maintained JAMstack front ends for multiple clients. Made sure statically generated websites were performant and could also be dynamic with user interaction via Javascript (React).
- Improved SEO and accessibility for multiple clients websites. See https://disruptiveadvertising.com/, https://collegewise.com, and https://heygrillhey.com/ for example.
- Wrote good documentation for code via README.md's as well as inline comments when appropriate. Wrote detailed commit messages and wrote good Merge Request submissions so my feature introductions were easy to review.

Lambda School (Bloomtech), Remote - *working as a Team Lead*

January 2019 - March 2019

- Mentored a group of nine students as they practiced and learned CSS, HTML, Javascript, React, Node, and Data Structures and Algorithims.
- Facilitated standup each day and worked directly with instructors and students to improve probability of successful learning.

Freelancing, Remote - *Web Developer*

Presently doing this as time permits. Don't want to sacrifice my family time.

- Built and maintained Lindys Local Pest Control Companies website. See more at https://lindyslocalpest.com/.
- Assisting development team as a contractor at https://cleansmarts.com to move into a Vue front end. For example, recently added icons to their navigation bar that invoke a chat widget for customer service, link to their privacy and service agreement pages, copyright view, as well as an animated shrink and grow effect when collapsing or expanding the side bar.

EDUCATION

Brigham Young University, Provo, UT - *Bachelors of Science*

August 2014 - May 2018

Bloom Institue of Technology - *Certified Software Engineer*

December 2019 - May 2020
